

Wax Intake Form

Indemnification Thrive Med Spa + Wellness

I have been advised by Thrive Med Spa + Wellness not to proceed with waxing depilation if I am using tanning beds, sunbathe frequently and have been sensitive to waxing in the past, and/or if I am using Accutane, Retin-A, glycolic acid, benzoyl peroxide, or any other oral/topical prescription meant to rapidly exfoliate or thin the layers of the skin.

I, therefore, now and forever covenant to release, indemnify and hold Thrive Med Spa + Wellness, it's employees, and it's agents harmless against any and all liability, damage and/or expense arising from, or in connection with actions, claims and/or damages resulting in personal injuries and disabilities (physical, emotional, and or psychological) that might occur as a result of the waxing which I now authorize Thrive Med Spa + Wellness.
